**Coordinación Nacional - Perú**

**Dr. Paula Barrett, PhD**  
**Director of Pathways Health and Research Centre**  
**Author of the FRIENDS for Life program**

Please let us thank you for the great contribution you brought to the ***IV International Congress and VI Peruvian Congress of Analysis, Modification and Cognitive Behavioral Therapy*** that was held during the days of 23, 24 and 25 of September 2011 in Lima, Peru. The academic event generated great satisfaction among participants and the expectations of the audience were exceeded.

It was a great pleasure and honor to meet you and learn more about the objectives pursued by the ***FRIENDS for Life*** program. The program has been very well positioned worldwide around the 22 countries where it is implemented. This program is a strong advocate for the building of resilience and the prevention of mental health problems in children and adolescents.

Participants attending the congress as well as members of the committee expressed high interest in the program and in the topic of prevention and resilience. This was an important opportunity that has set up important goals for our professional activity.

I want to also thank you for all the additional information you gave to us during this scientific event. I am sure it will be of great assistance when we implement the ***FRIENDS for Life*** program in our country.

Congratulations again for your outstanding participation. We hope to have contact with you in the near future.

Kind Regards,

National Coordinator  
ALAMOC Peru
