Salisbury Communities for Children*

Dear Paula,

Thanks again for your excellent presentation at the Children Communities Connections 2010 conference. Your knowledge and insights into prevention and early intervention in this critical area of child development were very much appreciated by those who attended.

Some of the feedback we received included:

“Very informative session on preventing anxiety disorders in children”

“Brilliant, engaging, inspiring, practical and valuable”

“Showed disrespect in going so long over time”

“Interesting and entertaining”

“Gave educative and pragmatic presentation”

“Wonderful presenter and highly relevant”

Hope you find the DVD recording useful. You'll also find some excellent feedback re your presentation on You Tube at <http://www.youtube.com/user/salisbury4c>

Looking forward to seeing the chapter you are working on for the publication in February!

Yours sincerely,

Karl Brettig

Convener Children Communities Connections 2008

“Facilitating the development of families and local communities to provide children with holistic opportunities to experience wellbeing and achieve their potential.”
